MAY 12 LATEST  
DATE FOR THE  
GERMAN ANSWER

Note is Handed to German Representatives in London by Allies

## CITE TREATY FAILURE

Say Germans Have Failed In Many Respects to Abide By Treaty of Peace

London, May 5.—(By the Associated Press.)—The allied ultimatum issued to Germany today summons her to reply categorically by May 12 at the latest whether she will perform her unfulfilled obligations under the treaty of Versailles primarily as to the payment of reparations to the Allied powers.

Should Germany fail to comply the allies give notice that they will proceed on May 12 with the occupation of the Ruhr valley "and to undertake all other military and naval measures."

The terms for Germany's payment of her debt to the allies are to be given her by the allied reparations commission by tomorrow.

## Continue Preparations.

Meanwhile the allies, the ultimatum states, are to continue with all necessary preliminary for the occupation of the Ruhr.

The ultimatum was handed to Dr. Stahmer, the German ambassador in London, this morning. It recites Germany's unfulfilled treaty obligations with regard to disarmament, reparations, the trial of war criminals, and other matters.

## Terms of Protocol.

The protocol to be handed the German war reparations commission in Paris tonight by the reparations commission says:

"Germany will perform in the manner laid down in this schedule her obligations to pay the total fixed in accordance with Articles 231, 232 and 233 of the Treaty of Versailles; 132 billion gold marks less (a) the amount already paid on account of reparations; (b) sums which may from time to time be credited to Germany in respect of state property in ceded territory; and (c) any sums received from other enemy or former enemy powers in respect to which the commission may decide credit should be given to Germany plus the amount of the Belgian debt to the allies, the amount of these reductions to be determined later by the commission.

## GIVE U. S. INVITATION.

Washington, May 5.—Sir Auckland Geddes, British ambassador, carried to the state department today the formal invitation to the United States from the allied powers to be represented on the supreme council, the reparations commission and the council of ambassadors. The invitation was cabled from London last night.

Comment as to the course the administration would take was withheld pending study of the invitation. There were intimations today in some official quarters, however, that acceptance by the allied governments of the principle regarding mandates recently enunciated by Secretary Hughes might be made the condition of unreserved participation by the United States in the deliberations abroad which it is asked to join.

## COCKROACH HOLDS UP TRAIN.

Winnipeg, Man., May 5.—Hold train for large party is a common order to railroad passenger train conductors but the smallest party they ever held up departure of a train in this section was a small cockroach. The Canadian National train with 460 passengers was held at Cochrane Ont. on its way from Winnipeg to Toronto. After the operator had tried to get through a message to release the train without success, he discovered the cockroach was caught between the ground plate and the strip on the telegraph instrument. The train had been held up for 20 minutes.

MOTHERS' DAY  
OBSERVANCE  
HERE SUNDAY

Proclaimed By Executive Proclamation in North Dakota

"For Mothers at home, flowers bright; For Mothers' memory, flowers white."

Mothers day will be observed in North Dakota, Sunday, May 8, by executive proclamation.

The first Mothers day in the country was held a few years ago. It now has come to be a national affair each year, and the date is determined by the national organization. Governors in every state in the union proclaim the day.

Ministers of the various churches are expected to deliver Mothers day sermons, and in some cities other public meetings are held.

The wearing of a flower on that day is now an established custom. Flowers of any kind are worn. The color is determined by the bit of verse expressed above. A bright flower if one's mother is living and a white flower if dead.

PRINTERS ARE  
ASSESSED FOR  
STRIKE FUND

Minneapolis, May 5.—Members of the International Typographical union last night voted an assessment of 10 percent upon the individual earnings of the membership for the purpose of financing locked out printers in various parts of the country who are seeking the 14-hour week.

The organization today issued a statement that such a levy nationally would yield about \$1,000,000 a month. The statement also said that the 14-hour week has been the rule here in the majority of job offices and that little difficulty is expected June 1 when the contracts as to hours expire.

## WEATHER REPORT

Forecast: Generally fair tonight and Friday, not much change in temperature.

SECOND LIEUTENANT FINDS ONE PLACE  
WHERE HE GETS A REALLY BIG SALARY

Colditz, May 4.—(The Associated Press.)—A second lieutenant in the American army on the Rhine is a "hot" in present rates of exchange to that of Marshall Pils. This may explain in part why the American army at 15,000 men costs Germany more than \$6,000,000 French troops in the Moselle zone. It accounts for the exaggerated statement from Germany that America is a fighting force cost Germany more than all the Allied armies of Occupation.

BAND, PARADE,  
LYNCHING ALL  
THIS EVENING

Arch Conspirator of Knockers to be Placed on Big Funeral Pyre

## ELKS TO HEAD PARADE

Real Live Knocker is Exhibited in Downtown Window By Town Criers

PROGRAM  
Arch conspirator of "Knockers" on exhibition in the Lucas store window this afternoon and evening.  
8 p. m.—Elks band, Town Criers, Rotarians and others gather at Fourth and Broadway.  
8:05 p. m.—Advertising Elks minstrels.  
8:15 p. m.—Knocker taken out of window, placed in steel cage, paraded to lot north of Auditorium.  
8:30-9:00 p. m.—Jollification and burning of "Knocker" in big bonfire.

"Well they did it." The Town Criers captured the real live arch conspirator of the "Knockers Gang" which they've been hunting down during "Know Bismarck Week" and they put him on exhibition this afternoon in a store window of A. W. Lucas and company fronting Main street.

The window, transformed into a cell, was decorated with placards telling what the knocker had been doing, which included knocking everything, even the Elks minstrels.

The clever writing on some of the cards indicated to some citizens that the conspirator must have had a witty co-conspirator, and some one thought of Sam Clark, but they dismissed the thought for they knew he wouldn't be writing knocking signs under any circumstances.

The Town Criers captured the conspirator, but the Elks have the honor of disposing of him and venting their feelings, for the reports said he had been knocking even the big minstrel show to be given Friday and Saturday nights.

Have Big Cage  
The big steel cage in which the knocker will be securely locked when he is paraded around town this evening was on exhibition in front of Webb's store and the bars looked formidable.

The Elks and Town Criers will start the demonstration at 8 o'clock, when the knocker is removed from the window and placed in the steel cage. Placed on a truck he will be at the head of the parade through the downtown district while the band plays a funeral dirge.

All Elks, Town Criers, Rotarians and other boosters are urged to fall in line for the parade. A special invitation was extended to the boys of the city to form a big bicycle squadron in the parade.

Funeral Pyre  
A big funeral pyre has been placed in the lot north of the Auditorium and the flames which will devour the knocker will reach high in the air.

Those in charge of "Know Bismarck Week" say this is to be the fate of all knockers in the future, but with the capture of the leader of the gang they hope to be able to say "Do You Know—That there isn't a single knocker in the city?"

New York, May 5.—Striking union marine workers here today continued their efforts to sign steamship owners to contracts calling for the old rate of pay and working conditions. Leaders of the idle workers said they had signed contracts with three steamship owners yesterday and claimed this to be a decisive victory over the owners' association.

U. S. REGULATION  
OF PACKERS IS  
HELD NECESSARY

Secretary of Agriculture Asks It be Placed in His Department

POINTS OUT REASONS  
Washington, May 5.—Federal regulations of the meat packing industry is very desirable now," to add the livestock industry Secretary Wilson declared today before a house committee holding hearings on proposed regulatory legislation.

The agricultural secretary suggested that his department be charged with administration of the law as it had a large number of men familiar with the industry and also because the farmers felt it was closer to them possibly than any other government agency.

Mr. Wallace told the committee he was unable to understand why the packers should oppose such legislation as reasonable supervision of their industry might have the effect of ending the criticisms to which they have been subjected.

Secretary Wallace asked the committee to give his department power to make studies of the price movements and economic changes in methods in distributing agricultural products.

"It seems to me the government should provide agencies in the department of agriculture which may give continuous study to price movements and the distribution of greater agriculture commodities," the secretary said. "The United States is now undergoing profound economic changes which may change the relationship and the balance for all our people. It is most important that we have the data which will enable us to determine the general trend."

TOWNLEY WILL  
DEBATE LANGER  
HE WIRES HERE

Offer Accepted and Two Men Will Meet First on Platform in Salina, Kan.

## DEBATES WILL CONTINUE

Townley Objected to Isolated Debates and Wants a Series of Meetings

William Langer, former Attorney General, and A. C. Townley, head of the National Nonpartisan League, will engage in a series of debates in Kansas and Nebraska.

Mr. Langer, who offered \$100 to debate him, the offering made through the Beatrice, Neb., American Legion post, today received a telegram from Townley, reading as follows:

"Your challenge to debate forwarded to me through parties at Beatrice and Salina. I have men in Kansas now arranging a series of meetings. Cannot accept one or two isolated debates but am willing to enter a series of debates covering several states. If you will agree to a series of debates covering wide territory I am willing to turn meetings now being arranged in Kansas into joint debates and suggest that the debates start at Salina, Kansas, the first of next week. Suggest that each appoint a committee of three to fix rules governing debates. Advise at once so I may authorize my representative in Kansas to advertise debate instead of meetings."

(Signed) A. C. Townley.

## Langer's Reply

Mr. Langer replied to the following wire: "Will debate you any time and night anywhere and everywhere except Russia. Consider yourself engaged at Salina on Tuesday, and from then on as long as the court will let you except for time out for me to appear as witness in my libel suit against your 'Courier-News.' Will wire you names of my committee today. Will pay you the hundred dollars I offered you on platform at Salina."

(Signed) William Langer

Mr. Langer also immediately wired O. A. Kitterman, president of the American Defense League of Kansas, to represent him in the arrangements for the debates in the different places in Kansas.

"I've been trying to get Mr. Townley to debate since October 24, 1919," said Mr. Langer, expressing satisfaction that Townley had accepted after he asserted, Townley had been harbored by American Legion posts in Nebraska and Kansas with questions as to why he would not debate.

SILENCE FIGHT

Take Possession of Large Region on German-Polish Frontier

ANGERED AT COMMISSION

London, May 5.—Polish elements in upper Silesia have forcibly taken possession of a wedge-shaped region the base of which is the former German Polish frontier and the apex of which has reached Goss Strahlitz, it is declared in advices received here.

Many large cities are said to be in the hands of the Poles, who have reached the Oder river and are marching toward the northwest in the direction of Oppeln.

Dispatches from Silesia assert the Poles, angered by reports that the inter-allied plebiscite commission had recommended the awarding of only the region of Ples and Rybnik in southeastern Silesia to Poland, have declared their intention to seize the whole region over the possession of which a bitter political struggle has been waged and the future status of which was to have been determined by the plebiscite held recently.

BATTLE SOUTH  
OF JAMESTOWN  
AT EARLY HOUR

One Wounded in Battle Dies After Being Brought To Jamestown

## TWO OTHERS GET AWAY

Leave Big Car and Escape In Light Car Stolen From Farmer

Jamestown, N. D., May 5.—At daybreak today enforcement officers and Sheriff Wright of Jamestown, and party, intercepted a whiskey runner's car containing three men and 35 cases of whiskey at Beaver Dam bridge on Sunshine trail about 12 miles south of Jamestown.

The men were ordered to stop, but speeded up. The officers fired and hit one of the men. When the men stopped later two men got behind a rock pile and held off the officers, while the third repaired the tire.

## Leave Wounded Man.

One of the whiskey runners was wounded, and the men, after the big car was repaired and they speeded off, left him at a farmhouse. He later was brought to Jamestown where he died.

The two others got away in a light car stolen from a farmer.

him at Minot on May 5.

The officers party had waited for nine hours for the whiskey runners to appear. Scores of shots were exchanged.

The officers party included Chief Inspector Harry Dunbar, of the state license department, and several other officers.

"The booze runners were poor shots," said one account, telephoned here. "They couldn't even hit Sean Smith."

Seaman Smith is a Bismarck man weighing 250 pounds.

At 2 30 o'clock a report was received that the runners were seen fleeing in a southwesterly direction.

SUPT. DEVINE  
REMOVED FROM  
SCHOOL POST

When Resignation Was Not Forthcoming, Board Takes Matter in Own Hands

J. M. Devine, superintendent of the Mandan Training School, was removed today by the board of administration and Ole Lund, employed by the board was placed in temporary charge.

Mr. Devine has drawn the fire of the administration several times and not long ago was formally requested to resign but evidently did not comply. It was stated at the board of administration headquarters today that conditions at the school warranted the removal of Supt. Devine.

Mr. Devine was appointed to head the training school by Gov. L. B. Hanna about six years ago. He came to Mandan from Minot.

Supt. Devine is a former governor of North Dakota and former state superintendent of schools.

There was no ground for my removal," said Mr. Devine today. They have filed charges that I was not conducting the school according to the best interests of the state and not turning out the best kind of citizens. I refused to resign without an opportunity to be heard and answer specific charges. Now that they have seen fit to remove me, I will retire as soon as my successor is installed. I believe my removal is due to the fact that I do not agree politically with the administration."

# DO YOU KNOW—

## The Wholesale Houses of Bismarck?

This week is "Do You Know"—week—in Bismarck—for the purpose of telling people what we have, and how Bismarck has grown to a large city, from a small wild cowboy town.

### DO YOU KNOW

We have in Bismarck one Wholesale Grocery House, two Wholesale Fruit Houses and one Wholesale Produce House which also manufactures—Butter and Ice Cream.

These four firms are the largest of their kind, in this part of the state, and in fact you might term them as being the bread basket for Bismarck, and the large range of territory which they cover from this city.

### DO YOU KNOW

These four Wholesale Houses sell every Grocery store and Confectionery Store their goods in Bismarck, as well as every store of the same kind in far distant territory.

### DO YOU KNOW

Every home in Bismarck serves some kind of food at each meal to their families which these Wholesale Houses are selling to the retail grocers in Bismarck. The chances are you never knew this before and have often wondered how stocks were kept up with the retailer. You no doubt also wondered how your grocer had such choice seasonable fruit and vegetables and have never considered that these Wholesale Fruit and Grocery Houses are supplying the retailer, for your special benefit.

### DO YOU KNOW

These Wholesale Houses when they located here had the people in mind as to how they were going to take care of them with foods that would remain fresh at all times and still maintain their natural appetizing taste. In order to do this and

give the people what the market had to offer, they went to a great deal of expense to install proper refrigerator plants in their buildings in order to keep delicate food at the proper temperature. These refrigerator plants are so constructed that every food section has a different temperature and the proper ventilation is worked automatically which prevents any food section going bad, and besides keeping all foods in their natural fresh stages for your daily meals.

### DO YOU KNOW

If it were not for these four Wholesale Houses being a part of our city, the people here would find it difficult to be blessed as they are with all the well selected good things to eat. Besides just imagine how much more you would have to pay out of your salaries for living expenses.

### DO YOU KNOW

Every citizen in Bismarck, should this week, as well as other weeks, take more interest in all business industries of which our city is the proud possessor, and make it a point to visit each and every business house and see what interesting things they may have and what surprising stocks they are carrying for the benefit of the people.

### DO YOU KNOW

These four Wholesale Houses are more interesting to visit than one may imagine, and everybody is most cordially invited to visit these places. You will be shown things in these places that are surprising and especially what massive refrigerators they have for the care of food supplies, and vegetables. This is something you did not know before.

### DO YOU KNOW

These four Wholesale Houses last year received 1,231 carloads of good apples.

## 2,500 VETERANS TO ENJOY ELKS VACATION CAMP

Minnesota "Bills" Plan to do  
Real Service to War  
Veterans

Minneapolis, Minn., May 5.—More than 2,500 disabled war veterans of Minnesota will be eligible to spend a vacation at a summer camp, to be financed by the local Elks club, and maintained in collaboration with the Federal Board for Vocational Re-education.

Following the initiation of the movement for a camp, where former wounded service men may enjoy a period of outdoor recreation, the Elks here agreed to finance the proposition. According to Judge Frank E. Reel, exalted ruler of the Elks, an experienced camp director, will be selected to take charge of the project and work out plans for it.

Disabled service men who are taking training under the direction of the federal board will be allowed two weeks' vacation, on government pay, to spend at the camp. M. T. Northey, personal service officer, announced. He said that throughout the state, there are approximately 2,500 former soldiers with disabilities traceable to the war. All of these will be allowed privileges at the proposed camp.

Final arrangements and the selection of a site remain to be made. Tentative plans, however, call for the admittance of any soldier with disabilities traceable to the war, who has an honorable discharge. It is planned to obtain reduced railroad rates and the net charge to the disabled veterans will be for their meals only, Mr. Northey said.

Lake Independence, in Hennepin county, about 21 miles from here, is being considered as the site for the camp. It is expected the project will be started between June 1 and June 15, with accommodations for about 150 men every two weeks.

ALMOST NEW, recently built Bungalow, 5 rooms and bath, full basement, furnace heat, hard wood floors, east front, lot 50x150, very pretty home, for quick sale, \$4,000, small payment and balance same as rent. Phone 961. Henry & Henry 5-5-21

## WINNING ESSAY URGES MATRON AT RAIL DEPOT

Marking of Streets Also Suggested For Improvement of the City

(Editor's Note—The following essay, written by Mabel Larson, sophomore in the high school, won first prize in the Town Criers high school contest on the subject "Bismarck, My City: What I Like About It and How I Think It Can Be Improved." The winning essay in the Junior High School contest also will be published. The essays were limited to 300 words.)

(By Mabel Larson)

To my mind, Bismarck is an ideal city. Years of growth have made it so, and the years to come will add to its attractiveness. Bismarck is situated on an open prairie which seems to extend a welcome hand to all newcomers. It has broad streets of pavement, natural drainage sewer system, light, gas and water conveniences. The city is well laid in well proportioned blocks, which are kept neat and clean by the citizens and the city. It also has an excellent fire and police protection. The roads leading to the city are kept in good condition, while the scenery along the drives is beautiful.

But while Bismarck is ideal, it is not perfect. It is not lacking in big things. It lacks the small things which are often as important as the big. One thing that Bismarck needs is some possible way for strangers in town to identify the streets. A stranger in the city has to inquire the names on the streets from pedestrians or ask at the homes. When a stranger asks me the name of a street, I usually feel as if it is my duty to the city to apologize for the lack of street signs and I think others feel the same way. The way to avoid this confusion would be to put up small, neat signs every block or two, which would be easily found by the stranger.

Another thing Bismarck lacks is the services of a matron at the depot. There are quite a few lone girls coming in on the trains and the girls who later at the station could well use her services. Besides these things Bismarck can have more pavement, a park with a swimming pool, more brick buildings in the business district, a Young Men's Christian Association, and a Young Women's Christian Association, all of which would tend to make Bismarck a bigger, better city.

## HARDWARE MEN OF 3 STATES ARE TO MEET

J. P. French, President of Winchester Club, Calls Dealers Together

J. P. French, of French and Welch Hardware company, president of the Winchester club of Minnesota, North and South Dakota, has issued a call for a special meeting to be held at the Radisson hotel, Minneapolis, May 10 and 11.

The program for the two days will be heard and participated in by a larger number of dealers of the three states, who handle the Winchester products. Mr. French was elected president of the club at Minneapolis last fall and continues to hold office until next year. Other officers are from Minnesota and South Dakota. Mr. French was vice-president of the club last year.

The Winchester products embrace firearms, cutlery, fishing tackle, skates and tools. When the organization is completed there will be 4,300 dealers in the United States handling the products. The organization in its enlarged program will adhere to the quality standards of the Winchester firearms.

## PRESBYTERIAL SOCIETY HOLDS YEARLY MEET

## 400 FARMERS GET TREES FROM GOVT. STATION

The eleventh annual meeting of the Presbyterian Missionary Society, held at Mandan, came to a close Tuesday evening of this week. Forty-five visiting delegates were in attendance and were entertained by Mandan families and meals were furnished each evening at the church by the Aid Society.

Miss Edna Paisley, in charge of a girl's school at Pungav, India, in her address "A Call From a Far Country," dwelt on the caste system in India and various phases of the missionary work there. A workers conference was led by Helen Streeter of New York City, who also made a talk on the "Challenge of the Year." Bismarck was represented on the program by the following numbers:

Response, Mrs. C. L. Young; "Holding the Ropes," Mrs. H. C. Postlewaite; "Our Young People," Mrs. F. C. Hansen; "Our Jamestown Conference," Mrs. Rachel Mowry; solo, Miss Bessie Williams.

A parable "Not Exempt," was portrayed by the local auxiliary and music was furnished by the Girls' Chorus of Bismarck and the Mandan High School Quintette.

This most successful meeting closed with a roll call of auxiliary societies and election of officers for the ensuing year.

## COLORADO TO BE SHACKLED TO TURN AMERICAN DESERTS INTO FARMS

THIS IS THE SPOT IN BOULDER CANYON ON THE COLORADO RIVER WHERE IT IS PLANNED TO ERECT A 700-FOOT DAM. HERE ALSO ARE A MAP OF THE COLORADO, SHOWING THE STATES AFFECTED BY THE ENTIRE RIVER DEVELOPMENT ENTERPRISE AND ARTHUR DAVIS, WHO IS COMPLETING A GOVERNMENT INVESTIGATION OF THE PROPOSITION.

### BY JACK JUNGMEYER

Washington, May 5.—Seven western states have united in asking Congress to help them tame the unruly Colorado and hitch it to the plow.

This work would enormously extend the food-producing area within the United States.

The first unit proposed to provide irrigation, flood control and power development is creation of a great reservoir behind a 700-foot dam at Boulder Canyon.

This, together with steps to be undertaken later, say the promoters, will transform the agricultural and industrial life of the entire southwest.

The government is asked to conduct a survey of the work so that the Colorado may be undertaken.

Congress last year authorized for the Boulder Canyon project at the 1920 session, providing for an investigation. Arthur P. Davis, director of the United States Reclamation Service, with a board of experts is completing a final survey.

Following Davis' recommendations, Congressman Swing of Imperial, Cal., will introduce legislation behind which every district affected is expected to line up.

The plan is for these districts to finance the project by issuing bonds, the various amounts being proportioned to benefits that shall accrue, this to be determined by a federal commission.

Estimates place the cost between \$75,000,000 and \$100,000,000.

## CHANGING NAME OF SOUTH DAKOTA TO ROOSEVELT FINDS APPROVAL IN N. D.

Fargo, N. D., May 5.—The movement in South Dakota to change the name of that state to "Roosevelt" is attracting some attention here. The Fargo Forum expresses entire willingness to have the southern state break away from the Dakota family if it so desires.

"Not highly complimentary, is it?" comments the newspaper after quoting Mitchell (S. D.) Evening Republic, which numbers blizzards and crop failures in North Dakota among reasons for the proposed change of names.

"We are not ashamed of our neighbors to the south as they seem to be of us," says The Forum. "Nor do we fear that we will always be regarded as a state of crop failures and blizzards."

"But if South Dakota would change her name it would make it much easier for us to drop that misleading adjective 'North' and be known simply as 'Dakota.'"

"It's a bully name. We're proud of it and we're proud of the state it would represent. Moreover, we'll be rid of our political troubles long before they are ended in other states."

H. B. Fuller, secretary of the North Dakota Farm Bureau Federation, answers the South Dakota newspaper's statement that North Dakota is a one

crop state. He says that the movement for crop diversification, temporarily retarded during the war when "the farmers of the state patriotically responded to the call for bread and returned to raising wheat," is again under way.

Regarding blizzards, Mr. Fuller said: "The worst blizzard I was ever in was in South Dakota."

North Dakota newspapers, generally, commented that "the sun was shining here," while most of the Middle West was being torn by storms and tornadoes, April 15 and 16.

## CONDITIONS IN NORTHWEST PART OF STATE GOOD

Rev. Finwall, Returning From Trip, Reports Heavy Snow

"Burke, Divide, Williams, Mountain and Ward counties look fine and the soil seems to be in splendid shape," said Rev. C. W. Finwall, who returned last evening from a tour throughout the northwestern part of the state.

More than a foot of snow fell in Burke and Divide counties last Saturday, but it quickly melted last Sunday.

Rev. Finwall reports also that Liberty Bonds and cash were turned over to him to a considerable amount for the New World Movement, the first of the four fiscal years covered by pledges to the extent of \$300,000 in North Dakota ending today. The people of Bismarck turned in their quota, which has been sent to headquarters by W. E. Parsons.

There will be a "Seventeenth of May" celebration this year at Wilton, and Rev. C. W. Finwall is invited to deliver his illustrated lecture on "Nordic, Sweden and Denmark Today," at the Grand Opera house in the afternoon of that day.

It is expected that a number of Bismarck people will celebrate the day at Wilton, where also people from Washburn, Underwood, Painted Woods, Regan, Wing and Baldwin will gather for the day.

Two teams conferred the Royal Arch Mason degree work on six candidates at the Masonic temple last evening. The ceremonies began at 4 p. m. and dinner was served at 6:30 p. m. with Gilbert Hansen, high priest, presiding. Judge Nuessle gave a "Do You Know" talk. Several visitors from nearby towns were present.

Make it a point to meet your friends at the New Garrick.

## ARMY MAN WEDS WELL KNOWN HERE

A wedding of interest to Bismarck people is that of Captain John Taylor de Camp, grandson of Mrs. J. B. Taylor of Bismarck, whose marriage to Miss Barbara Virginia Meister took place in Chicago on April 23. The following notice, is from the Army and Navy Journal of April 30:

The marriage of Barbara Virginia Meister, daughter of Major William B. Meister, Med. Corps, U. S. A., and Mrs. Meister, to Captain John Taylor de Camp, Coast Art., U. S. A., took place at St. Mark's Episcopal church, Chicago, April 23, 1921, the Rev. Malcolm Van Sant officiating. The bride was attended by Mrs. Joseph Eberhart, of Evanston, Ill., as matron of honor. Capt. Charles Bartley was best man. Capt. Henry Bobrluk and Lieuts. Eric Erickson, Clinton Lucas and John Hinton were ushers. After the ceremony, which was witnessed by relatives and numerous friends of the bride and groom, a wedding luncheon was served at the home of the bride. Captain and Mrs. de Camp will sail from San Francisco on the May 5 for Honolulu, where Capt. de Camp will be stationed.

Mrs. Jessie de Camp, mother of the groom, was a former Bismarck girl, the only daughter of Mrs. J. B. Taylor. Mrs. de Camp spent the winter at San Francisco, where her son was stationed, and attended the wedding in Chicago, returning recently to her home in Fargo.

#### MACABEES TO MANDAN

Macabees Review No. 2 went to Mandan last evening to be present at a meeting of Mandan Review. State Representative, Mrs. Wilkinson, of Port Huron, Mich., was present and made an address. State Representative, Mrs. Demars, of Fargo, was also in attendance. These officers set forth in attractive talks, the matter of preparation for the great Marathon meet to be held in California in 1923. Every member of the Macabees Reviews writing \$25.00 of insurance, will be entitled to a trip to the California meet with all expenses paid. Much enthusiasm is manifested by the members, as a consequence. Members from reviews at Carson, Dickinson, Jamestown, and Bismarck attended the Mandan meet in order to hear the national and state officers discuss the Marathon meet.

A local meeting of the Bismarck Review was held at the home of Mrs. Pearl Johnson on Monday evening of this week with the same interest manifest. The State Representative, Mrs. Demars, was present, and presented the matter to the Bismarck members. In compliance with the observance of booster week, Mrs. J. B. Saylor, Commander of Bismarck Review of Macabees made a stirring talk on the advantages of Bismarck. On being asked by the reporter as to what advantages were touched on, the speaker stated that Bismarck has too many advantages to enumerate in so short a period, but the city surely received its due.

#### COMMUNITY COUNCIL, SATURDAY

The meeting of the Women's Community Council, to be held on Saturday afternoon at 3:30 in Masonic temple, will be of special interest. Judge Nuessle will talk on civic needs now calling for the attention of the Council. Judge Nuessle always has something worth while to offer and every member, as well as friends who are interested in the uplift of the town, should come out to hear Judge Nuessle. Mrs. J. Orr, who has been spending the winter in Minneapolis, will tell what the Minneapolis Council are doing for their town. Mrs. E. Bannou will report on how the plan of supplying milk to the school children is coming on. Miss Ruth Kolling has many good things to say regarding her work. The matters of carwash ordinance, dance halls, moving picture shows, etc., will be considered. The matter of what can be done by the Council to further the matter of beautifying the park will be taken up, and in accord with Booster week, Mrs. Charles Moser, President of the Council will talk on the advantages of Bismarck.

#### CLUB BULLETIN ISSUED.

The April edition of the North Dakota Club Bulletin, official organ of the North Dakota Federation of Women's Clubs, has just been issued. The Bulletin comes to us this month enlarged to twelve pages, which demonstrates that our editor, Mrs. F. R. Smyth of Bismarck, knows her business. The little paper will bring much that is of interest to the thousands of club women over the state and it is done, apparently after the plan quoted from Frank L. Stanton:

When you've got a thing to say, Say it. Don't take half a day. When your tale's got little in it, Crowd the whole thing in a minute. Life is short—be fleeting vapor—Don't you fill the whole blamed paper With a tale, which, at a pinch, Could be crowded in an inch. Boil her down until she simmers; Polish her until she glimmers; When you've got a thing to say, Say it. Don't take a half a day.

AUXILIARY DELEGATES TO DEVILS LAKE  
On Wednesday evening in Legion hall, the Auxiliary to the American Legion elected the following delegates to represent their chapter at the coming state convention in Devils Lake: Mrs. William Falconer, Mrs. Frank L. Shuman, Miss Ruth Wynkoop and Dr. Bolton Henry. The convention will be held on Wednesday and Thursday of next week.

JUNE BRIDE ENTERTAINED  
Among the pretty affairs arranged for Miss Lergina Caspary, a bride of June, were a dinner at the home of Mr. and Mrs. George B. Brundland, on Avenue B, on Tuesday evening, and a luncheon at the McKenzies by Mr. and Mrs. H. Brundland on Wednesday, the latter hostesses having been a part of the Bismarck Club's celebration of Music for some years.

At Mrs. Henry Brundland's luncheon there was a color scheme of pink and white carried out very effectively throughout the luncheon. Covers were laid for ten ladies, intimate friends of the bride-to-be. At the close of the luncheon Miss Caspary was presented with a huge bowl of pink and white carnations.

#### Special Luncheon served after the Minstrels, Annex Cafe.

Visiting Here  
William Connor, a pioneer resident of Bismarck, who has been making his home with his son on a ranch in Montana, is in the city, visiting his daughter, Mrs. W. A. Hughes and meeting many old friends.

#### Request of Elks.

All Elks who will have automobiles in the big minstrel parade Friday noon and Saturday noon are asked by Dr. F. B. Strauss, chairman of the parade committee, to decorate their automobiles in purple and white bunting or American flag. The purple and white bunting reached the city today, Dr. Strauss said.

Dies Suddenly.  
Miss Sadie Pinkerton, who came to Bismarck from Minot a short time ago as stenographer for the North Dakota Good Roads Association, died suddenly in Minneapolis after an operation which was not expected to be serious, according to word received here. The body will be taken to Minot.

Aids "Do You Know" Week.  
Superintendent of Schools J. M. Martin adopted a novel way of joining in the "Know Bismarck Week" advertising. In correspondence with prospective teachers he has sent each ten postcard pictures of various scenes of the city. Superintendent Martin believes that the attractive scenes will attract many teachers who might not know just what Bismarck is.

Held on Vag Charge.  
Frank Miller, picked up by Chief of Police Martinson after he had stolen 7 cents from a drugstore, is held under a vagrancy charge. Police say he has admitted he is Edward Whalen, alias Boston Frank, alias Harry Curtis, who according to the "rogues gallery" record is 42 years

## FLYING BOXCARS

You'd get quite a shock if an airplane swooped down into your back yard one of these mornings and delivered a ton of coal or a dozen phonograph records.

And yet, is that day so far off?

About \$5,000,000 worth of freight was carried by airship last year, across the English Channel, between Great Britain and the Continent.

"Foreign trade by air will be much bigger this year," says the government report from London. "One of the largest items of exports by air last year was men's clothing. The bulk of aerial imports was women's clothing, furs, hats, hosiery, moving picture films, perfumes, jewelry and precious stones."

The latter items suggest that smugglers of the future may use the airplanes for crossing international frontiers. Liquor already is being brought into the United States from Canada and Mexico by air route.

A Jules Verne would have no difficulty conceiving a future day when flying freight trains may cause railroads uncomfortable competition.

## THE BIGGEST FARM

Three years ago the country was startled by the news that Wall Street had gone into the farming business. The Morgan firm put up the money for a 200,000-acre Montana farm; the land was to be reclaimed and introduced to the plow for the first time. Many persons said Wall Street would fail at farming.

Last year was the first real test of the venture. Nearly a million bushels of wheat have been threshed, and considerable flax and oats. In all 52,000 acres were cultivated. Within five years it is believed the whole 200,000 acres will produce food.

Morgan is making good as a food producer.

But the greatest share of credit should be awarded to Tom Campbell, a "regular" farmer, who conceived the idea of interesting Wall Street money in what was to be (and is) the biggest farm in the world. Campbell had two other ideas; the all-machine farm, and the best-to-be-found program.

On this biggest of farms there isn't a horse, nor a mule, not even a dog; no animal other than human. Everything is done by machinery. By the exclusive use of man and machine Campbell gets 8,000 bushels of wheat per man per season, which will make up into quite a few loaves of bread!

Living in a machine age Farmer Morgan also discarded some other moth-eaten farm habits. He has a bookkeeping system on the farm. He keeps track of every dollar, every acre, every man and every machine. The biggest farm is business; not a thing of guess-work and trusting to luck.

## FANCIES OF A CHILD

Children are naturally imaginative. The fancies of a child are many and varied and serve a proper role in the intellectual and emotional development.

Unfortunately, the fancies may assume an improper trend fraught with serious consequences. This fact is brought out when it is recalled that children as a rule do not harbor resentment, but naturally attempt to settle their quarrels by argument.

On the other hand, a number of children do harbor resentment when their power of self-assertion has been stunted through following the lines of least resistance in the settlement of childish disputes and discords instead of meeting them frankly and squarely.

The children of this type are given to so-called day dreams and reflections over supposed wrongs. They weave fancies about suppositions injuries which give a species of satisfaction and contentment.

These fancies, unless properly directed, ultimately become fixed habits of thought, which make for poor mental adjustment in after-life. For this reason, any system of training children should take into consideration their imaginative faculties and the tendency to build air castles and weave fancies.

When properly controlled these are healthy substitutes for the whimsical and capricious longings of childhood that may ultimately result in mental maladjustment.

For this reason the real or fancied wrongs of children should be settled without delay, the discomforts and discords should be smoothed to the satisfaction of the child and he should be encour-

aged to make confession of his feelings and desires.

## "AND A LITTLE CHILD—"

There are three and a half millions of little children in central and southeastern Europe, who are the victims of the most merciless war of all time.

Hollow-eyed, emaciated, starving, they are holding up their shriveled arms in silent supplication to the people of the west, of America, pleading: "Help us, or we die." Cold, hunger, nakedness, starvation are the things they face. Helpless little kiddies, much like your own, they are dying, dying.

But big souled Americans, at an appeal by Herbert Hoover, have come to their aid. They have raised about \$23,000,000 to save these children.

## "A RIGHTEOUS, JUST AND UNFAILING DEFENSE"

Some peacetime ceremonials involving the instruments of national defense are as impressive as those of war.

The review of the Atlantic fleet at Hampton Roads the other day took on such significance when, after spectacular preliminaries, President Harding made it the occasion to re-dedicate the navy to "peace with honor."

The president's rostrum was the fighting deck of the dreadnought Pennsylvania. There under the frowning guns and snapping pennants, after his first official appraisal of the armada, he talked to admiral and gob alike.

"The United States does not want anything on earth that doesn't rightfully belong to us," he said, "no territory, no payment of tribute. But we do want what is righteously ours—and by the eternal we mean to have it!"

"I wish we might never be compelled to fire a gun in war \* \* \* But I would not want peace without honor. I want to join with you in providing for our country a righteous, just and unfailing defense, and to that program every patriotic American unfailingly subscribes."

That was the kind of ammunition the commander in chief placed in the navy's magazines alongside the cordite and the steel, at the conclusion of the first grand assembly of the Atlantic squadron since 1915.

There is a palpable arrogance about a fleet on review which President Harding could not have failed to sense as the line filed past the Mayflower with booming salute, and when half the country's sea fighting machinery lay at anchor about his yacht.

It is thrilling and sobering, and not even the saltiest skipper is immune to a swelling of pride. Harding quite apparently was moved in no small degree. And while he had come to the flagship Pennsylvania to shake hands with officers and to eat, he forget all about luncheon and talked.

That talk of the president got over to officers and men his conception of their relationship to the guns, and made quite definite to the gob the reason he mans the American battleship.

And it announced to the world, also, President Harding's conception of what these ships, as the "first line of defense," stands for.

An evil intention perverts the best actions and makes them sins.—Addison.

## A GOPHER PRAIRIE DECISION

Sauk Centre, Minnesota, is unfortunate.

Smarting under the implication that Sinclair Lewis, who spent his boyhood there, had used the town as a model for his now famous "Main Street," it has been vigorously protesting that its people are the victims of an unjust libel. It declares that Sauk Centre folks are not as narrow and sordid as those portrayed by Mr. Lewis but, on the contrary, it is contended that human, warm-hearted, broadminded people are in the majority and that the town's ideals are fully as high as those of any other town anywhere.—Duluth Herald.

## A BILL TO SET INDUSTRY GOING

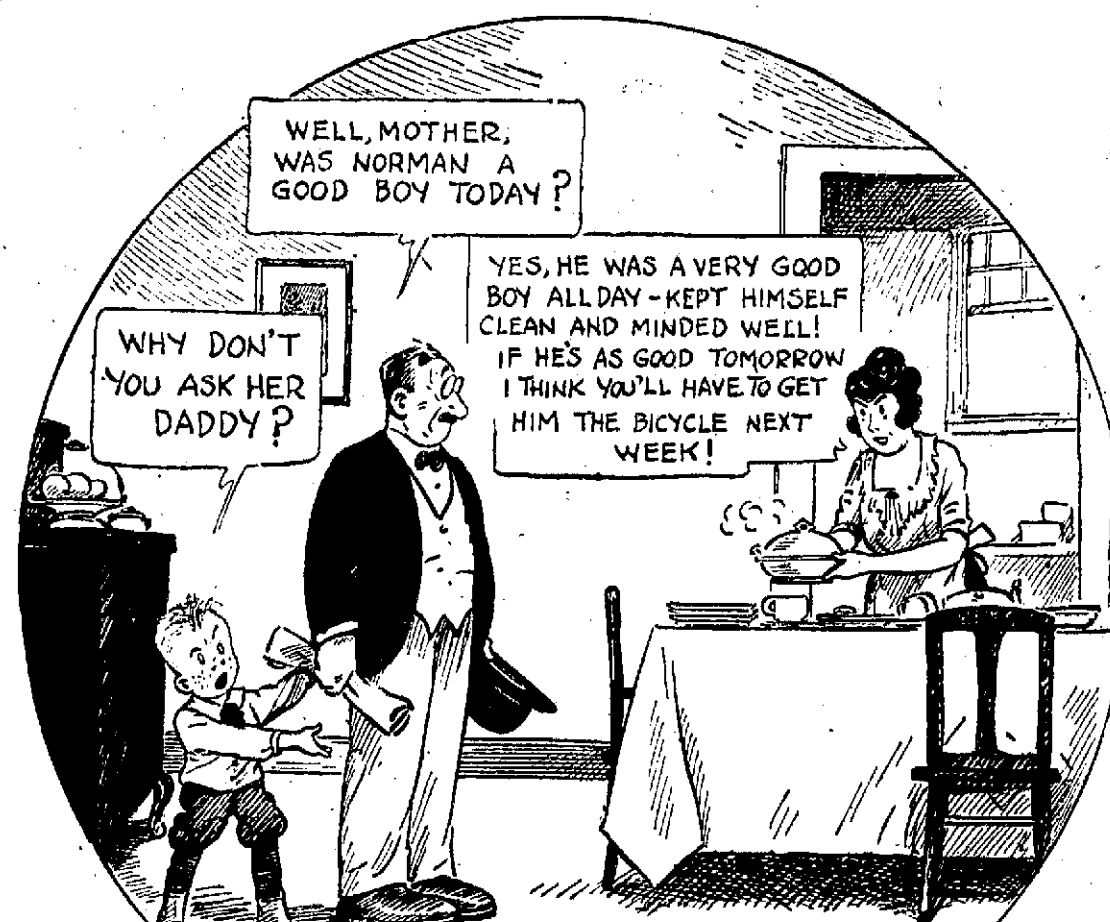

Senator Smoot is proposing a bill for what he calls a sales tax. It might more accurately be called a bill to set industry going again and put idle men to work.

His plan provides for raising \$2,000,000,000 a day by a small tax on sales. This would amount from a trifle over 1 per cent. to a maximum of 3 1/2 per cent. on the sales price of goods. The amount would not be noticeable on living costs. Often in the last few years the cost of living has varied more than 3 1/2 per cent. up or down, in a single month.

By this tax it would be possible to relieve from taxation investment funds that are now being absorbed by the government. These funds would be put into industry to enable it to go forward. Money would be available for big business institutions at a reasonable rate of interest, where now they are obliged to pay excessively for new capital or for credit to finance their current operations.

As a result of lifting this load, business would be more work and lower prices. The cost of living would be correspondingly reduced. The success of the Smoot proposal is of the first importance in getting the country back on a basis of normal prosperity.—Kansas City Star.

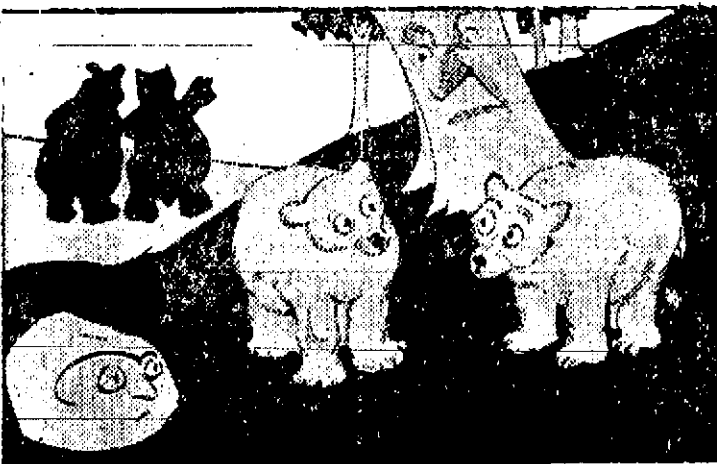

## THE GREAT AMERICAN HOME

THE FRAME UP -

## ADVENTURES OF THE TWINS

By Olive Barion Roberts

Butter-Ball looked at Billy-Bunch and Billy-Bunch looked at Butter-Ball.

Mr. and Mrs. Brown-Bear went lippy-lapping out in the woods hunting for their breakfast. Following them were their twin sons, Butter-Ball Brown-Bear and Billy-Bunch Brown-Bear, hungry as hunters.

"What'll you have?" Mr. Bear asked Mrs. Bear.

Mrs. Bear replied that as she always woke up with a headache, there was nothing that did her half so much good as honey.

"Then honey it is," said old Bruin, her husband, "boys," turning to his sons, "hurry up and help us to find some wild honey in one of the trees. Your mother has a notion that she'll like some."

"But I've a notion, too," protested Butter-Ball. "I've a notion that in about another minute I'll be starved to death, and I know where greenie grasshopper and all his relatives are hiding. Couldn't I have just a weeny bite before I hunt for the honey?"

"Sont!" said Mr. Bear, sternly. "Mind your manners! Ladies first, especially mothers."

Butter-Ball had nothing further to say, so he tucked his tail between his legs and he hadn't any tail to tuck—and slunk along sulky as sour cream.

Billy-Bunch had wanted grasshoppers, too, so he tucked in his tail, either—and he slunk alongside, sour as buttermilk.

Pretty soon old Bruin Brown-Bear called back, "Hi there, kids! I see a great lot of honey trickling out of that big button-ball tree. You fellows shiny up and get a big handful apiece and fetch it down. Mama's head is hurting so bad she can't wait. I'll keep watch and it I see any bees-coming, I'll call up to you."

Butter-Ball looked at Billy-Bunch and Billy-Bunch looked at Butter-Ball. The same idea occurred to both.

## YOU HAVE ONLY ONE MOTHER

(By Lena D. Skeptenko, written in honor of Mothers Day, Sunday, May 8)

It was your Mother who made the first sacrifice for you. She gave you life. When all other friends turn away from you, your Mother yet remains. If you are ill, it is her tender hand that strokes your feverish brow.

If financial disaster overtakes you and you lose your hard earnings of years, and all others forsake you, there will still be your Mother, with words of comfort and cheer, ready to offer any sacrifice that may help.

"Mother is the greatest name in all the world!" Think of the suffering your Mother has endured for you. Everybody in the family complains but Mother. Don't you realize that when your Mother passes from life, you will never have another?

Help Her in every way while you can. For today may be your opportunity to help your dear Mother and tomorrow, you have only one Mother.

A man is great—chiefly because of his Mother.

The greatest man owes most of his greatness to his Mother. There might never have been a Caesar, a Napoleon, a Washington or a Lincoln, if it was not for your Mother.

Some people never miss their dear Mother until she passes from life, then they regret.

May God help us all to realize the meaning of "OUR MOTHER" first.

## INGROWN NAIL

Toe Nail Turns Out Itself if You Toughen Skin

A noted authority says that a few drops of "Onion" upon the skin surrounding the ingrowing nail reduce inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can naturally grow almost over night. "Onion" is a harmless, anti-septic, manufactured for chronicists. However, anyone can buy from the drug store a tiny bottle containing directions.

An' she gives us th' richest an' nicest

An' her coat is as glossy an' shiny

When grand-papa milks her I run with

my cup,

An' grand-papa will take it an' fill it 'way

While th' mooley cow stands there

a-lookin' at me

for she is as gentle, as gentle can be.

Th' mooley cow's milk is much nicer,

I think

Than any thing else we are given to

drink;

An' th' more milk we drink, we the

stronger will grow;

I know this is true, 'cause my mamma

says so.

I love all th' lambs, an' th' nice woolly

sheep,

'At come when we call, in a big snowy

heap;

I love all th' chickens, an' pigs, an' th'

rest,

But I think I'm a-lovin' th' mooley cow

## "A JEWEL OF CHICAGO"

Is Title Applied to Wrigley Building

Wrigley's new office building in Chicago is at the new Boulevard Link Bridge, Michigan avenue and the river and heads the vista looking north on Michigan avenue, so Mr. Wrigley chose a beautiful design which makes the building a decorative feature of the Chicago lake front and harmonizes with the Chicago Beautiful plan.

Wrigley Building

The main building is 16 stories high, surmounted by a tower 42 feet square and rising 353 feet from the street level. This tower will contain a clock with dials on four sides, each 20 feet in diameter and will be surmounted by a searchlight lantern 9 feet in diameter.

The building is covered with enamel finish terra cotta on all four sides. It is regarded as one of the most beautiful buildings in Chicago and people and press are enthusiastic about it. The Chicago Tribune published a picture labeling it a "Jewel of the Link."

Wrigley also recently completed new factories at Chicago and New York.

All this new construction work in the space of a few years is certainly a tribute to the power of advertising and the accumulative effect of a multitude of 5-cent sales.

leg to the world.—Mary C. Goodwin, Ohio nurse "recruiting officer."

I BELIEVE Ireland should be free—as free and independent as any nation on the globe.—Senator Robert La Follette, Wisconsin.

THE GOVERNMENT should put an end to its pestiferous interference with legitimate, righteous business.—President Harding.

DON'T HOG.

American roads are too narrow for

carefree driving.

Yet there are some who speed by approaching motorists as if there were 100 feet of space between them.

Result—the innocent, careful driver must swerve into the mud or ditch if he values his life and his car.

The new touring season will see more automobiles on the highways than ever. More care will have to be taken to avoid accidents.

Less hogging—more regard for the other fellow—will save many a life and make the season more pleasurable to all.

When another driver approaches, slow down, keep close to the right and your day's pleasure will not be interrupted.

GOOD EFFECT OF WAR.

Presence of the British Army of Occupation in the Bagdad area during the war, with its automobiles and trucks, has stirred the Arabs to the ambition of owning motor cars. They are spending money on good roads.

Finally Relieved by taking

Lydia E. Pinkham's

Vegetable Compound

Ravenswood, W. Va.—"For seven long years I suffered from a female trouble and inflammation so that I was not able to do my household work. I consulted several doctors but none seemed to give me relief. I read in a paper about Lydia E. Pinkham's Vegetable Compound and so I decided to try it. I had taken the first bottle when I was gone I continued using it until I had taken eight bottles. Now I am very well and can do my household work. I am glad to recommend it to all who are in need of a reliable remedy for female troubles. Lydia E. Pinkham, Lowell, Mass., U.S.A."

## MANDAN PLAYS HERE SUNDAY

Baseball fans will have the first opportunity of the season to see the Mandan baseball team in action on Sunday.

The Mandan team will meet the penitentiary team on the penitentiary grounds at 2:30 P. M.

A big crowd is expected and the prison park grandstand is being enlarged to care for the enthusiasts.

A week from Sunday the prison team will play the Bismarck salaried team.

UP SHE GOES!

"American League Champions, 1920," is the inscription on the pennant that was raised at Dunn Field, Cleveland, April 5. The Indians stood at salute while the Stars and Stripes, the pennant and the Dunn Field banner went up.

## JACK BRITTON SPURNS \$10,000

Milwaukee, Wis., May 5.—Jack Britton, welterweight champion boxer, turned down an offer of \$10,000 and a percentage which it was expected would have netted over \$15,000 to box "Pinky" Mitchell of Milwaukee in a fifteen round title contest July 4, according to Tom Andrews, local promoter.

According to Andrews, Britton declined the offer on the plea that he could get as much money in the east for the same match and for ten rounds with no decision.

Mitchell went through a ten-round no decision contest against Britton in Milwaukee a few months ago and while the majority of the sporting writers credited Britton with a shade, some thought Mitchell entitled to an even break.

## SUMMER BALL FOR COLLEGE MEN OPPOSED

Ohio State Director However  
Willing to Give it Trial

Columbus, Ohio, May 5.—L. W. John, director of athletics at Ohio State university is opposed to summer baseball for college players, but is willing to give it a trial in the Western Conference if such is the sentiment of that body.

"There is ample time for the college player to take up the professional game after he leaves his university," St. John said. "He should not be permitted to play in the summer for money and still retain his amateur standing according to our conference rules. The percentage of college men who would make good would be small in comparison with those whose services would not be in demand."

"When our players sign up for the season it is with the understanding that they never have played baseball for money. At the same time they are told our faculty board of control reserves the right to recommend suspension from college if they have told an untruth."

"Our college game is developed for the masses and it would be unfair to permit a certain few to earn money during the summer because of their diamond skill."

## READY TO RUN FAMOUS DERBY FOR \$50,000

Louisville, Ky., May 5.—With the arrival today of several thoroughbreds that have been nominated for the \$50,000 Kentucky derby which is to be run over the Churchill Downs track here Saturday, practically all of the principal contenders for the supreme honors of the west are at the famous old track. Several candidates arrived yesterday and the paddock is alive with trainers, attendants and others making ready for the historic classic.

Gray Lag, the Harry F. Sinclair horse, made an impression while on his first time out yesterday. He probably will be ridden by jockey Earl Sande.

Star Voter, owned by Commander J. K. L. Ross, is among those expected at the Downs today.

Lou Tamber probably will accompany the colt and give him his final preparation for the race.

**SEES GOOD SEASON AHEAD.**  
Fargo, N. D., May 5.—Independent baseball in North Dakota this season promises to be equal to that played in the state when the Northern league and teams in Grand Forks and this city. Reports from the cities and larger towns over the state indicate

that at least thirty first teams will be in action during the summer.

In this connection, D. H. Hester, manager of the Minot team, has announced that a canvas of the larger places in the state indicate that the clubs will not have to depend on gate receipts for finances, but that each team has from \$2,500 to \$5,000 raised by contribution of local followers of the game.

## "FIXING" MADE PENAL OFFENSE

Lansing, Mich., May 5.—Drastic punishment for persons convicted of "fixing" any professional athletic contest in Michigan is provided in a bill passed by the state legislature. The measure, which had the backing of Governor Greenback, makes "throwing" of any contest punishable by a fine of not more than \$5,000 or five years imprisonment or both.

## LEGION POST TO HAVE TEAM

Devils Lake, May 5.—The Running Post, American Legion has decided to have a first baseball team this season to compete with other Legion teams of the state, and, if such is possible, to become a member of the Legion, which is now being discussed in other cities.

The local post selected as the com-

## PRAISE GIVEN GUARDSMEN OF NEW COMPANY

All Applicants Meet Physical  
Requirements for Guard

"One of the finest bunch of young men I've ever seen," remarked Dr. A. M. Fisher, in commenting on the members of the new Company A, North Dakota National Guard, who were examined last night.

All of the applicants passed and the company expects to receive recognition from the adjutant's general's office very soon. There is still room for a few more to get in the company any they may enter by seeing members of the committee, Fred Graham, P. G. Harrington, Herman Broopp.

"It will be a fine thing for these men to get the exercise and training they will get," said Doctor Fisher. "It is one of the best ways in which the young men, many of whom do office work, can get the necessary exercise and training conducive to good health."

Dr. Fisher examined boys for the border in 1916 and many in the army, but he said he had never examined a cleaner, better bunch of men than he did last night.

## GERMANS DON'T WANT AMERICAN FORCE RELEASED

Speculate on Probable Effect of  
Knox Peace Resolution

Coblenz, May 4.—The Germans of Coblenz have been speculating with deep interest on the possible effect of the Knox resolution in Congress declaring that a state of war no longer exists between America and Germany.

Whether the adoption of that resolution would cause the withdrawal of the American forces in Germany has been the main subject of discussion in

the German press of the occupied territories.

The correspondent, after interviewing the most representative Germans of all classes in Coblenz, can say that to the majority of Germans here, the withdrawal of the Americans would be regarded as regrettable.

In administrative and political circles, they have been living in dire fear of the French taking over the area which would be abandoned by the Americans. "If we must have occupation let it be American," is the consensus of opinion.

Among tradesmen and shopkeepers the feeling of regret would be unanimous. "The tailor next door has become a millionaire," said the book store proprietor with mingled feelings of admiration and envy, to the correspondent. "That book store man is sure reaping a paper-market harvest, was the way the tailor put it."

There is only one class of the population which looks upon the presence of American soldiers darkly. They are the young men who did not participate in the late war. Between them and the average doughboy there is no love lost and no fraternization. From time to time there are even a few clashes. The doughboy has it that the young German is jealous of

the former's popularity with the frauleins. Others who look deeper say the larger cause is that these young men relatively have not suffered from the war and they are looking to the future in a spirit of revenge.

## EXHIBIT MANUAL TRAINING WORK OF CITY SCHOOL

An attractive exhibit of the Manual Training Department of the high school has been placed in a window of the store of A. W. Lucas and company.

The exhibit was prepared to show Bismarck people what is done in the manual training and domestic science work as a part of "Know Bismarck Week."

The exhibit includes various articles of furniture made in the school and samples of the cooking of the high school students. This exhibit, with the historical exhibit at Webbs, the bridge exhibit at Hoskins, the exhibit of pictures of points of interest in the city at Finney's, and the good roads exhibit at Breslows, will remain in the windows all week as a part of "Know Bismarck Week."

# Do You Know

That The Bismarck Tribune Company is now thoroughly housed in its new, modern fireproof plant

That the management wants those interested in knowing how a paper, a book or other printing is done to visit the building and see the presses and typesetting machines in operation.

### DO YOU KNOW—

That the Bismarck Tribune company in addition to issuing a daily newspaper conducts a large job printing plant. Its presses handle runs of 250,000 impressions and over.

### DO YOU KNOW—

That tons of paper are fed yearly through automatic devices that are most fascinating to behold.

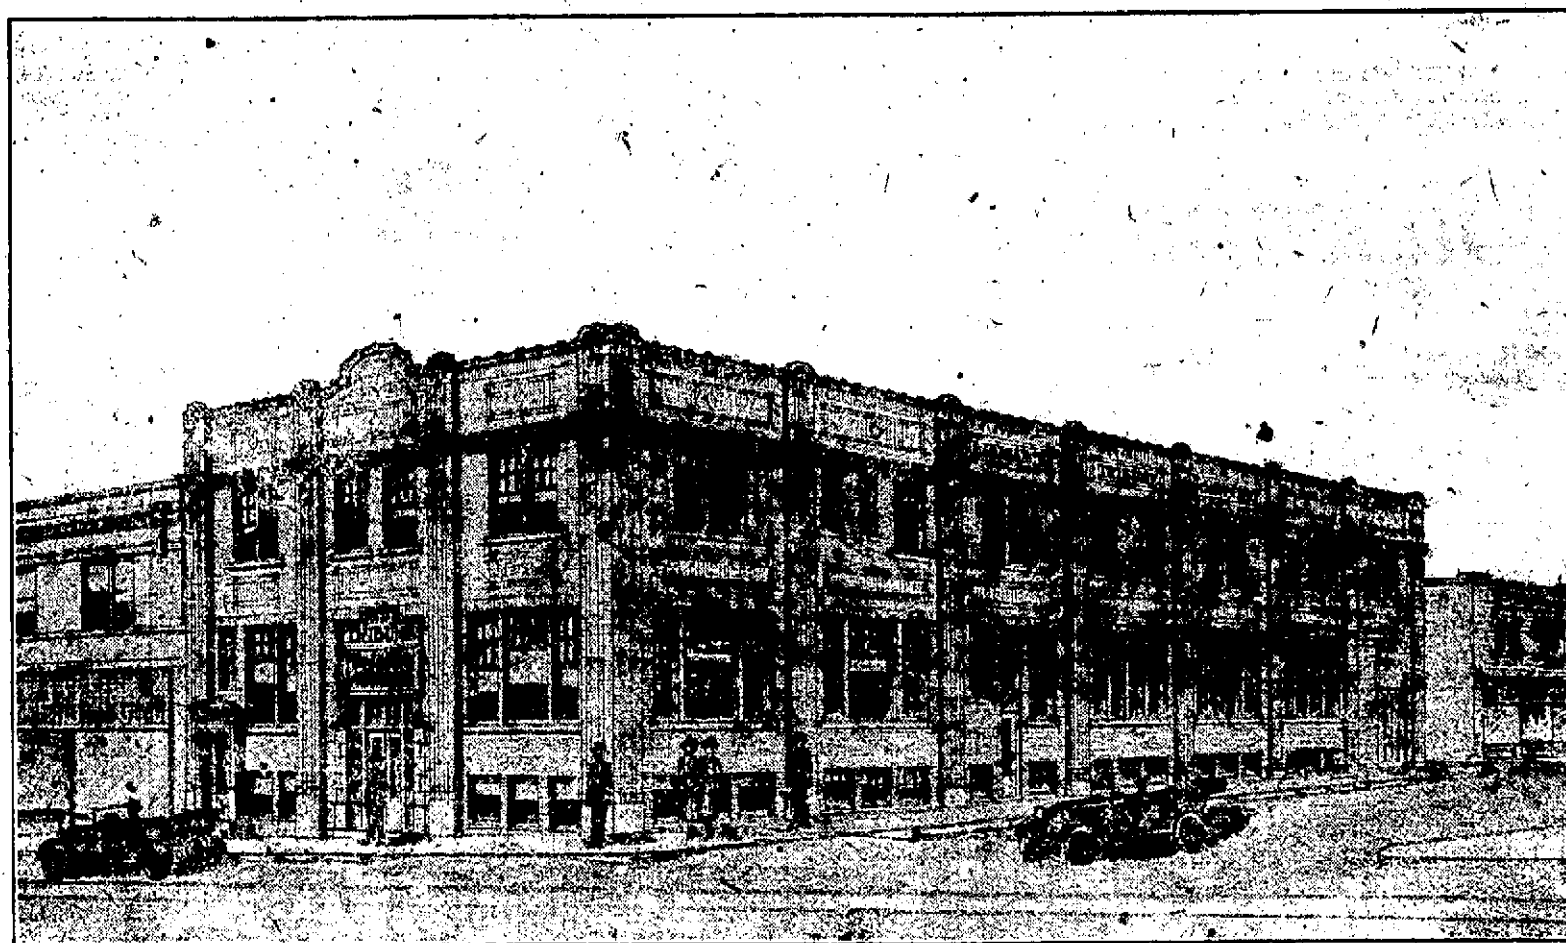

### DO YOU KNOW—

That it takes a battery of five linotype machines to keep the presses busy. If you have never seen a newspaper being put into type—the experience will interest you.
